Courage under Fire Sep 10 2021 One of the darkest days in American history became an extraordinary story of courage under fire. *Courage under Fire* is United States Capitol Police Chief Steven A. Sund's gripping personal account that takes readers inside the events leading up to January 6, and provides a detailed and harrowing minute-by-minute account of the attack on the US Capitol, which was valiantly defended in hand-to-hand combat by the US Capitol Police officers who found themselves outnumbered fifty-eight to one. *Courage under Fire* draws upon audio recordings, key documents, and government records as it traces Sund's extraordinary journey from his command post on January 6 to his explosive behind-closed-doors testimony before the January 6 committee. Steven A. Sund, one of only ten men in history to hold the title of Chief of the US Capitol Police, has coordinated dozens of National Special Security Events, responded to numerous critical incidents and active shooter events, and has protected every living US president. But nothing could have prepared him for the violent attack on the US Capitol on January 6, 2021. Three days before the attack, Chief Sund requested the assistance of the National Guard. This request was denied. In preparation for the Joint Session of Congress, Chief Sund directed every available sworn officer to be on duty to protect the Capitol and all of its members and staff. But it wasn't enough. The savage attack that followed was a well-planned and carefully coordinated armed assault on the United States Capitol, involving thousands. The shock and horror of this attack exploded on TV screens worldwide as US Capitol Police officers under Chief Sund's command found themselves facing a violent siege, hit with pipes,

fire extinguishers, boards, and flag poles. Dedicated men and women were knocked unconscious and sprayed with mace and bear spray as live pipe bombs were discovered at the national headquarters of both major political parties. Finally, multiple police lines were breached. Then the building was breached. The National Guard didn't arrive until it was much too late. In the end, 150 officers were seriously injured, and nine Americans were dead. Now, for the first time, Chief Steven Sund has written the definitive inside story of the perfect storm of events that led up to the attack on the US Capitol on January 6, a day that rocked the nation and threatened our democracy. As the Capitol descended into chaos, insurrectionists infiltrated and stormed its hallowed halls and democracy was pushed to the brink. Few people realize just how close we came to seeing the Vice President, the Speaker of the House, and countless members of Congress beaten, maimed, or killed. There have been many false reports and outright lies concerning the conduct of the US Capitol Police on January 6, and there has been no accountability for the individuals who bear most of the responsibility for the failures that left the USCP unprepared that day—from the shocking failures in intelligence to the outright stonewalling Chief Sund received from the Pentagon when he repeatedly called for the National Guard's help, even as the attack on the Capitol was raging. Two years later, so many questions still remain unanswered: What did the intelligence community know about the plans of the insurrectionists before the attack? Why was the request for the National Guard continually denied and delayed? Why was the nation's capital so vulnerable? Forced to take the fall and resign, this is Chief Sund's chance to answer those questions and to tell the full truth about what really happened on January 6.

A Carver Policy Governance Guide, The Policy Governance Model and the Role of the Board Member Jul 08 2021 The Carver Policy Governance Guide series includes six booklets that offer board members a description of John Carver's Policy Governance model of board leadership. Policy Governance enables a board to fulfill its accountability to its organization's "owners," whether the owners are association members, city residents, company shareholders, or a community of interest. Policy Governance addresses the board's engagement in financial, programmatic, and personnel matters; roles of officers and committees; reporting and evaluation; agendas; and other aspects of the board job. *The Policy Governance Model and the Role of the Board Member* sets out a clear vision for excellence in board leadership. It gives board members an understanding of the concepts and principles that are at the very heart of John Carver's innovative Policy Governance model. This guide details members' main tasks and presents the guidelines needed to transform a board into an effective group

that consistently leads powerfully. The Policy Governance model is based on the functions rather than the structure of a governing board. It outlines commonsense principles about governing that fit together into an entire system. The practices of the Policy Governance board, which are consistent with the principles, allow it to control without meddling, focus on long-term organizational outputs, powerfully delegate to a CEO and staff, and discharge its fiduciary responsibility in a visionary, strategic manner. Because the model is a total system, the Carver Policy Governance Guide series offers boards a complete set of principles for fulfilling their various obligations.

The Board Member's Playbook Mar 28 2023 The Board Member's Playbook--written for board members who are either familiar with or new to John Carver's revolutionary Policy Governance model--offers real-world scenarios that address the challenges that confront boards of all types of organizations. Step by step, the authors walk readers through a proven problem-solving sequence that allows them to find solutions consistent with the values and policies of their organizations.
